

May 23, 2017

Good morning, Ms. Dixon –

My name is Sara Corona Goldstein, the School Director of the Schuler Scholar Program at Lindblom Math and Science Academy. The Schuler Scholar Program equips bright, motivated youth with the support they need to gain access to and succeed at highly selective colleges and beyond. Schuler Scholars are typically first-generation college-bound, are students of color, or come from low-income families.

Schuler has been partnering with Lindblom for two years now, and we have just completed the selection process for the incoming Scholars for the class of 2021. I am pleased to inform you that we now have five Schuler Scholars from Dawes Elementary: **Fernando Rosell '20**, **Arturo Fonseca '21**, **Daniel Contreras '21**, **Jose Torres '21**, and **Ricardo Flores '21**.

I am delighted that we have such a strong group of Scholars originating from your school. I want to extend my congratulations to you and your faculty for creating the kind of environment where these exceptional students could really flourish and achieve so much before they even start high school. We could not do our work if not for the work of educators like yourselves. I would particularly like to thank Ms. Sharon Thomas and Ms. Linda Leal for their thoughtful teacher evaluations of these students. Their input and insight was extremely helpful to us in our selection process.

I am hopeful that this will be the beginning of a productive relationship between the Schuler program at Lindblom and Dawes, especially if we continue to receive such strong applications in future years from your students. Please let me know if you would like to learn more about the Schuler Scholar Program and the kinds of students we serve, or if you have thoughts about ways we might partner in the future.

Congratulations again, and thank you for your time.

All best,

Sara Corona Goldstein
